Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner contacted the applicant's representative to discuss a proposed amendment that would likely render the claims allowable. Specifically, the examiner requested language specifying the molecular weight of the phenoxy resin to be inserted into claim 1, as this limitation appeared to be critical to the invention. Further, corrections to the dependancies of claims 4 and 8 were discussed, as well as minor changes to clarify the claim language. .
